

Assignment –2
Introducing Relational Databases.

- 1) Which field of the Customers table is the primary key?

Cnum is Primary key from customers table.

- 2) What is the 4th column of the Customers table?
4th column of customers table is “RATING”

- 3) What is another word for row? For column?

Row : Tuple, Entity, opportunity.

Column : Attribute, key, method.

- 4) Why isn't it possible to see the first five rows of a table?

While inserting values into table MySQL uses different memory location for different set of row which increases inserting speed. As a result while reading those values from table mysql reads according to memory address sequence. Hence it is not possible to see the first five rows of a table.
